LYCEUM ATTRACTIONS.

For the Season of 1914-15 Are Announced.

MUSIC AND LECTURES.

Array of Talent Which is Scheduled to Appear Here at Intervals Throughout the Winter.

An annual Lyceum entertainment course is now regarded as practically indispensable in nearly 15,000 American communities, and the number is increasing with each year.

Some one has truly said that a Lyceum attraction, even though it failed to raise a higher standard in the community, at least never lowered an existing standard or in any way leaves a deleterious effect. This cannot be said of many other kinds of amusement and entertainment.

What the winter's entertainments and lectures are to be in each community is usually looked for at this time of the year. The course here this year will be made up of the following attractions:

C. Edward Clarke graduated from the University of Toronto in 1903 with the degree of B. A. He made two tours of Canada and the states with a concert company. He then studied abroad in London with Shakespeare and in Paris with Bouly and Seagle. Returning to America, he again gained valuable experience in the concert field, touring with noted artists and at the head of his own company for several years.

In 1908 he returned to Paris and there for nearly three years was active in the musical life of that city, teaching, singing in the American church and studying with the world famous teacher, Jean de Reszke.

Mr. Clarke has appeared in nearly every city and town in the United States and is now in constant demand by the leading musical and oratorio
